

OLYMPIC INTERNATIONAL SALES

SERVICE ADVANTAGE

2024

930 W 1st Street, Suite # 111
North Vancouver, BC V7P 3N4

*Having buildings work.
It's why we're here.*

We are a service provider that focuses on systems solutions

OUR GOAL

Olympic Service provides technical expertise and dedication to having systems work and is committed to ensuring our customers get the full value out of their HVAC investment.

The market we continue to pursue is to be the technical specialists in electrified mechanical heating and cooling systems.

Olympic International Service Provides Factory-certified Specialists.

“Customers call Olympic Service when they have difficult problems that others can’t fix.”

About Us

Olympic International is the **region’s largest provider of HVAC solutions** serving British Columbia and the Yukon from our North Vancouver and Kelowna offices. As a market leader with **over 60 years** of experience, we provide extensive technical expertise for mechanical system design, service, and installation.

Our team is factory-certified to work on many heat pump and chiller product lines with scroll compressors. Our equipment sales focus on the **supply of heating and cooling solutions for commercial and institutional buildings.**

As our client, you will receive the best expertise and knowledge on site every time. We utilize the latest technology to ensure your investment is running at peak efficiency, saving operating costs, lowering overall maintenance costs, all while extending equipment life.

Our program offerings provide routine inspection, maintenance of the covered equipment per the manufacturer’s recommendations, and task lists. We lay out a new level of detail through our robust platform for service documentation, a platform with service reports in real-time, access to photos and videos to give an in-depth look to what our technicians see.

We promote **sustainable initiatives and provide energy efficient mechanical systems** to create and maintain high-performance buildings.

The more global view of the building systems and commitment to buildings that work, is what sets Olympic Service apart. British Columbia’s lean toward electrification of building heating systems will create a huge opportunity in the coming years, our service group is well positioned to support this shift.

Years of Experience

Olympic International’s success is a result of the people that we have.

Why Choose Us?

1. Partnership

As your service provider and advisor, our investment in your effective building operation, our level of quality assurance, and industry knowledge provide our customers with absolute peace of mind.

2. Factory-Certified

Our factory-trained technicians are certified to service, repair, and maintain mechanical systems. Our Parts and Supply Division offers a comprehensive range of OEM parts and supplies for HVAC equipment.

3. Exceptional Service

A sustainable solution and exceptional customer service remain an integral part of our successful service business.

4. Extensive Expertise

We sell high-tech equipment where a high-level skill set is required to service the equipment properly. We take the right measures to lower your operating costs, prolong the life of your equipment, and reduce downtime.

5. Environmental Impact & Safety

We reduce our environmental impact by ensuring equipment is tuned and run efficiently and correctly to reduce carbon emissions. Our industry-leading health & safety program uses the best practice strategies tailored to who we are and what we do.

We Proudly Service these Manufacturer's Products
